TREATMENT INCLUDES

- Interior:** Systematically inspect the entire home – All bedrooms, kitchen, bathrooms, garage(s), attics, laundry rooms, and other conducive areas of the home, including corners, cracks and crevices, behind furniture, window frames, door thresholds, closets etc.
- Use flushing agents during inspection if activity is observed or expected.
 - Treat any pest activity observed during the inspection.
 - Apply insecticidal dusts to wall voids through plumbing access, raised thresholds.
 - Apply residual in AccuSpray Elite to those areas that dust was not applied due to possible disturbance or would be unsightly (Crack & Crevice Only).
 - Dust attic – Soffit Areas.
 - Treat crawl space if applicable with baits around harborage areas.
- Exterior:** Systematically inspect the entire exterior perimeter of home and garage, eaves, windows and doorways, weepholes, looking for potential pest harborage areas and treat accordingly.
- Using the Web Duster, remove accessible spider webs focusing around entry doors and lights and porch coverings. Treat paper wasp nests within reach from ground level.
 - Apply residual insecticide(s) to foundation and around doors, windows and to the first floor eaves.
 - Dust cracks & crevices and weep holes.
 - Stuff weep holes with cooper mesh.
 - Apply granulated baits around the perimeter concentrating on harborage areas conducive to insect. Make sure to include baiting under decks.
 - Apply Pro bait fire ant bait to the coverage area up to 8,000 sq ft.
 - Apply Advion Fire Ant Bait to the individual mounds.
 - Chemfree specialist will use Extinguish Plus fire ant bait for all areas up to 8,000 sq ft.

SPECIAL NOTES/ATTRIBUTES

**Power spray the perimeter if included in Scope of Service or if the technician deems beneficial.*
