

NAME OF SERVICE: Rodent Exclusion (Rodent Stand Alone)

ATTRIBUTES: Check for attributes on the services for more treatment specifications.

TO INCLUDE: Inspecting and sealing of the home according to the provided documents and inspection by the rodent specialist.

COVERED PEST: Provides control of rodents (rats, mice, squirrels, raccoons, possums, and skunks).

EXCLUDED PEST: Bats & Birds. Doesn't cover rodent activity in yard or on highlines. **This service only covers rodents getting into the structure.**

TREATMENT INCLUDES:

- 1) Interview and Inspections:
 - Interview customer regarding symptoms, problems, noises
 - Inspect attic for activity to determine what type of rodent is present
 - Inspect perimeter with flashlight and mirror
 - Inspect roof for entry points to determine what type of rodent is getting into structure
- 2) Exclusion:
 - Seal attic vents from the attic and set traps and/or cages
 - Seal exterior perimeter under siding, A/C lines, pipe penetrations, etc.
 - Seal roof joints, vents, fireplace, and any type of opening that a rodent can gain entry
 - Seal corners of the garage doors if needed
 - Place a dryer vent cover over the exhaust's outlet on exterior
- 3) After sealing is complete go back and re-inspect home to make sure that every possible opening has been sealed
- 4) Call the office to confirm "Check Trap" or "Check Cages" are on the schedule appropriately
- 5) Any dead rodents accessible will be removed

SPECIAL NOTES/ATTRIBUTES:

- 1) The structure must qualify for this option regarding roof type, garage door seal, and the construction of the crawl space
- 2) Coverage includes trapping, baiting (if necessary), and physical control measures specified on exclusion survey
- 3) There will be no warranty to prevent rodent entry from broken plumbing pipes, which requires a "smoke test" at a separate fee and additional plumber fees to repair
