TREATMENT INCLUDES

Interior: Treated upon request of the customer for specific issues.

Exterior: Refer to Signature EOM Protocol. In addition:

- Seal entries and exits that rodents use to access the structure.
- Use traps, devices or other appropriate methods to eliminate any animals that may be sealed inside the building.
- Service all bait stations with every service changing out the bait if needed. Each bait station should have 1 to 2 blocks of bait inside, depending on feeding activity. Some customers may choose not to have the bait stations installed, which must be noted on the account.
- Inspect the complete exterior of the home looking for conducive conditions and evidence of rodent issues such as gnawing, rub marks, droppings. All evidence should be noted during time of service and brought to the customers attention.

SPECIAL NOTES/ATTRIBUTES

- Warranty renews on an E.O.M. basis. Includes a trapping and baiting program performed every other month to control the infestation during the covered period.
- There will be no warranty to prevent rodent entry from broken plumbing pipes, which requires a "smoke test" at a separate fee and additional plumber fees to repair.
